## FRIENDS OF THE MUKWONAGO RIVER HAS FUNDS FOR LANDOWNER INVASIVES REMOVAL

**LANDOWNER OPPORTUNITY!**  
**Mukwonago River watershed landowners!**

*Doing invasive removal/restoration on your property? Friends utilizing a WDNR Forest Weed Grant can reimburse you for restoration work and invasive control and management. Application Deadline August 31, 2020. Visit our website for forms and more details.*

Got Buckthorn? Frustrated with Garlic Mustard? Loathe Honeysuckle? Now is your chance to fight back and receive financial assistance from Friends of the Mukwonago River! We helped landowners manage almost 50 acres of invasive removal and restoration over the past few years. This grant will run through June 30, 2021. All work and grant funds must be expended by that date.

Landowners in the Mukwonago River Watershed have a unique opportunity to receive financial assistance as they learn control techniques for these and other invasive species and perform restoration on their own properties under a Forest Weed Grant through the Friends of the Mukwonago River. Invasive species are the current most critical threat to the health of the watershed.

Interested? The landowner application is here: [2016 FWG Land Owner Application & Rubric](#), and the [FWG Land Management Template](#). Figure out where and what on your property you want to manage. You will need to submit and follow a management plan that is not difficult.

Questions? Contact Friends at [mukwonagoriver.org](http://mukwonagoriver.org) Send your completed application to this email address, or our PO Box 21, Eagle WI. 53119 [www.mukwonagoriver.org](http://www.mukwonagoriver.org).
